

ÉTATS (FAITES-LE VOUS-MÊME).

Les micronations, les nations-concepts, les nations-maquettes sont des pays (souvent sans terre) conçus par des artistes, des excentriques, des mécontents politiques ou des égocentriques. Incluant le plus souvent le concept de monde parallèle, ces micronations entremêlent l'imaginaire, l'artistique, le réel ainsi que des motivations aussi variées que la répugnance à payer des impôts, un amour immodéré des titres royaux ou même le simple désir de créer une nouvelle civilisation...

GROW YOUR OWN.

Micronations, model and concept nations are countries (often without territories) conceived by artists, eccentrics, political malcontents or egocentrics. These micronations merge the imaginary, the artistic and the real in their embrace of a parallel world, motivated by artistic and conceptual concerns, a dislike for paying taxes, an immoderate love of royal titles, or even the simple desire to create a new civilization...

Dear Madam,
Dear Sir,

The Palais de Tokyo, a major contemporary art museum in Paris, has invited Peter Coffin to organize an exhibition on the subject of micronations, independent and sovereign states, conceptual nations, secession movements and related subjects. We are honored to invite your organization to participate in this exhibition.

In eager anticipation of working with you on this project, I look forward to hearing from you soon.

Kind regards,

Anthony Huberman
Curator Palais de Tokyo

Your Excellency,

Is this exhibit accepting self-nominations?

The Dominion of British West Florida was review in the Lonely Planet guide to Micronations. <http://dvwf.net>

We have issued Commemorative Coins and Stamps.

Yours in the Service of the Dominion,
Bo, Baron Von Servers

On behalf of Westarctica, we appreciate the honor of having you ask us to be in your exhibit. Although I am the person who usually handles these questions, the person who has concurred most in this respect has been our designer, Mike Brooker. He has been able to get together more easily, and he has designed our coins as well as the coins of other micronations. The only other items which have been designed are our webpages, our crests, the crest for the Princess of Thurston, and I personally composed the lyrics and music for our Westarctican National Anthem. Unless our treasurer decides not to participate, I hereby give you the right to play our national anthem, as sung by my son, and brother of the Princess of Thurston, directly from the website.

Fondly,
The Rev. Dr. Louette Matt, Esquire
Minister of Affairs
Westarctica

Patria would be extremely pleased to have silk-screened flags produced for your exhibition. To date, Patria's flags have existed only on paper, usually hand-drawn. There have never been "real" (i.e. cloth, silk-screened) flags of Patria.

The following is an unofficial French version of Patria's national anthem.

O Patria de nos amours,
Pays de nos ancêtres
Rassemblons pour la victoire,
Meurent, envahisseurs, traitres.
Le cri de guerre retentit
en 1 an 1818, soit la loi
d'un peuple jamais conquis.

(French text dates from circa 1985)

For some background on the origin of the tune borrowed for the national anthem:
